UNIQUE CANE Bearing Name of Every Governor of Kentucky is Presented to Governor Willson

Judge T. L. Edelen has presented to Governor Willson an odd cane, which was carved by J. M. Hendrick of Georgetown.

The cane contains the names of every Governor of Kentucky from Shelby down to Willson, each name being carved on the cane by hand with a penknife.

The only name missing from the list is that of William Goebel.

Mr. Hendrick carved the cane, which has a handsome head, and intended it to be used by any Governor who is in the Executive Chair. The presentation was made by Judge Edelen, and Governor Willson, thanked him for the thoughtfulness of the man who carved it.

An original poem party given by a literary hostess was a success. Each guest contributed an original poem, and these were read aloud and the name of the writer guessed.

SEPTEMBER OMENS.

September's birthstone is the sapphire and stands for constancy, truth and virtue. Here is a little verse for the September girl:

"A maiden born when September leaves
Are rustling in September's breeze,
A sapphire on her brow should bind;
'Twill cure diseases of the mind."

September's flower is the morning glory, and seems hardly appropriate, because it means affection.

September is a favorite month for weddings. The oracles say that it is, on the whole, quite safe to get married in September. The sixteenth, eighteenth and twentieth days of the month are especially auspicious.

Men of Taste Have Found Our Display of Fall Suits

Of unusual interest. Our lines comprise every color and cloth desired by men, young men and boys who are intelligent dressers. Colors are prominently in evidence this season. The young man with ideas of fashion will have little trouble making selection; so will the man with quiet taste find a wide display to suit him.

A word about our Men's and Boys' Shoes: Before we embarked in the shoe business we investigated among the leading best lines in the country. That we were wise in our selection is proven by our daily increasing shoe business. We believe we are the only shoe people in Maysville that guarantee satisfactory wear or "money returned" on all shoes except patent and shiny leathers. EUGENE RICHARD DAVIS.

Mr. Eugene Richard Davis, one of Mason county's wealthy and highly esteemed citizens, passed away at his home near Helena Saturday evening at 6 o'clock, after a several weeks illness with typhoid fever, aged 56.

The deceased was born in Mason county, December 19th, 1852. October 27th, 1875, he was united in marriage with Miss Amanda Powell, who with three children survive him—Mrs. Hortense Kelly of Fleming county, Sterling H. and Elmer T. Davis of the county.

The funeral will take place tomorrow morning at 10 o'clock, sun time, being conducted by Rev. W. E. Arnold.

R. E. HARRIS.

Mr. R. E. Harris, one of Germantown's venerable and aged citizens, died Saturday evening at his home in that place with general debility and the infirmities of many years.

He was born in Virginia in 1820, and at early age removed to Kentucky and settled at Germantown, where he continuously resided esteemed and respected by all.

He was a devout member of the Christian Church. Five years ago he celebrated his golden wedding.

He leaves a widow and five children—Mrs. Charles Cooper of this city, William Harris of Tennessee, Mrs. L. E. Waggoner of Ohio, John Harris, of Bracken county and Miss Nanale Harris of Germantown.

The funeral took place yesterday from the

house, with services by Rev. E. C. Langer of the Christian Church.

Interment in K. of P. Cemetery in Germantown.

Mrs. William McKelley, formerly of this city, died Friday night at Augusta, and her remains were interred Saturday afternoon in the Augusta Cemetery.

Mrs. Logan M. Marshall of Amarillo, Texas, is visiting her sister, Mrs. John C. Kirk, at Washington and other relatives and friends in the county. The report of the illness of Mr. Logan Marshall is unfounded, as he is quite well and is now at Wilberado, Texas.

BRYAN must be amazed at the audacity of ex-Governor FRANCIS of Missouri, in announcing that he (FRANCIS, not BRYAN,) aspires to the Democratic nomination in 1912.

HENRY WATTERSON, Chairman of the Newspaper Committee of the Democratic campaign, has made public his Press Committee of Advisement. It is noted that Ohio is not on the list. Does this mean that Ohio has no real Democratic paper?

THE verdict of the Jury Saturday morning in the Mason Circuit Court, sentencing CHESTER SAVAGE to a term of six years in the Penitentiary for the murder of his uncle, Mr. William L. SAVAGE, at Fernleaf two years ago, should meet with popular approval.

Although the murderer is now a mere youth, and at the time of his bloody and wanton act was only 14 years of age, yet we see no extenuating circumstances influencing the crime.

The boy is sharper than he looks, and if there is any truth in his vulgar remarks when the "wise alienists" examined his perverted mentality, it would be monstrously unwise to turn him loose, or even place him in the Reform School where he might have another spell of blood-thirstiness and run amuck again with gun or knife.

This murder was one of the most mysterious in the annals of crime in Mason county.

That the boy had some reason, known only to himself, for murdering his uncle, we have no cause to doubt, and during the six years period of his confinement, the real animus behind the act may come to light.

Of course, sympathy goes out to his aged father, and he will do all in his power to gain freedom for his son, but the law is framed to protect society from just such fiends as this boy appears to be, and any of us may be murdered when we least expect it should drastic justice be not meted out promptly and effectively.

BEFORE AND AFTER.

Rosy Pictures of Profits Prove to Be a Pips Dream.

Those who complain that the city already has debts enough should bear in mind that the water plant debt is not a debt, but an asset. At least that is what we were told a few years ago, when we were in the hysterical process of acquiring a worn-out plant, which today needs two or three hundred thousand dollars in the way of repairs and improvements.

But the people are fluding out the difference now. They are paying just as much for water as they did under the old system, and at the same time they are being taxed to pay interest on the plant and for repairs. The city used to receive taxes on the plant. Now it does not receive anything except free water for the city hall and a few other city institutions. There are also several thousand people who are helping to pay interest and repairs and purchase price on a plant from which they do not receive any benefits at all since the water is not brought to them.

They used to tell us in large letters that the plant was not only able to pay for itself out of its earnings, but the surplus could be used to build city halls and bridges and beautify the city until it should resemble a modern paradise.

All these dreams are now jokes. We are up against the real facts, and the management of the water plant has not been such as to make any of them realizations as yet, and there is no promise that they will be realized in the future. But these things should not discourage us. We should regard the water plant debt as an asset, not a debt. Let us stick to that and be as happy as we can.—Cedar Rapids (Ia.) Republican.

DECEITFUL APPEARANCES.

Municipal Mismanagement Masquerades as Municipal Munificence.

Spreading of robbery, there is a point of municipal ethics that has hitherto been ignored, but is now being given some attention in England and the United States. When the rates charged by municipal plants are too low to cover the cost of operation, maintenance and investment the deficiency must be made up by taxation, a part (and frequently a large part) of which falls on those who derive no benefit from the plant. Their money is taken from them arbitrarily to enable some of their fellow citizens to get their electricity, gas or water below cost.

This is manifestly unfair, but it is no more unfair than the reverse process, which is more common in England than in this country. There they rob the depreciation and reserve funds of the municipal plants to "relieve the rates"—i. e., decrease the tax levy—or accomplish the same result by raising the price of gas or electricity, thus compelling the users of these commodities to bear more than their share of the city's expenses.

These methods of municipal dishonesty, contrary though they are in their effect upon the consumer, are alike in that they make it appear that the city is doing more for its citizens than a private company would do. But it is only another case where appearances are deceitful.

Fearful of Competition.

The water supplied by the municipal waterworks of Toronto, Canada, is not above suspicion. Up to a short time ago official analyses were made of the water and published so that the people might use their own discretion as to using it without boiling. The publication of analyses has been stopped by the authorities lest, according to the Toronto Star, the analyses should be used as a means of frightening people and possibly of inducing them to buy bottled drinking water from a private company. This action caused the Star to exclaim:

"This is paternalism gone mad. The people have a right to know the quality of the water they are drinking and with this knowledge in their possession to act upon their own judgment."

Comment cannot emphasize the force of these statements.—Public Service.

Spoken From Experience.

A private company can get better results than can be obtained out of a municipal plant. It is not bound down by any such restrictions as the eight hour law; the officials of the company see to it that there is no waste or loafing, because it is a commercial project there is more efficiency, and as a result any of the lighting companies of this city can sell us light cheaper than we can make it. There is proof in my own office here that it costs the city more to do its business than if it were a private concern. If the finance department was a commercial house, as it really ought to be, and was under the system which prevails in large financial houses the department would cost the city just about half what it costs now.—Comptroller Metz of New York.

Cost Far Above Estimate.

If the advocates of municipal ownership are as far off in their promises of cheaper lights as they were in the estimation of the cost of the plant and the time of its installation, the people of Ligonier will pay dearly for their fun. We were told that \$15,000 would pay the bills, but the lowest bid that is being considered by the council is within a few dollars of \$25,000. We were promised that the plant would be put in at once. It is now seven months, and still nothing is being done, and the city is in darkness.—Editorial in Ligonier (Ind.) Banner.

An increase of 25 per cent in the rates has just been put into effect by the commissioners of the municipal waterworks of Lockport, N. Y.

DENIES THAT BRYAN "COULD DO NO HARM."

Congressman Burke Says Office of President is Infinitely More Powerful Than Congress.

Congressman James Francis Burke of Pittsburg in an address on "The Powers of the President" says:

"The American people can make no greater mistake than to elect Mr. Bryan on the assumption that he can do no harm in the face of an adverse senate. As between the executive and legislative departments of the government, the former has infinitely greater power to rule and ruin than the latter."

"Mr. Taft and Mr. Bryan are wholly different types of men. Each possesses a strong individual character, which would certainly assert itself in the White House. What either of these men would do during a four years' term in the White House is causing as much anxiety among thoughtful Americans as the mere matter of the election alone."

"As a disturber of monies the president is without a rival in the world. Through the agencies under his control he will this year disburse a billion dollars, showing the great things we are doing in addition to the unparalleled list of the world's achievements."

"In view of the fact that during the fifteen years of Bryan leadership the states controlled by his party have decreased from 23 to 12, the number of senators from 48 to 31, the number of representatives in congress from 220 to 164 and in that time the Democratic party was in control of the ground, whereas it is now, as a consequence of his teachings, a hopelessly heterogeneous mass of Populist elements, the American people can see little prospects of a constructive policy if Mr. Bryan should succeed."

Russianizing America.

The ordinary citizen whose relations with the postoffice are confined to sending letters and an occasional paper and to receiving such mail as the postoffice authorities consider it proper for him to receive is unlikely to realize how oppressive this branch of our government may be.

We regard with amused contempt the efforts of the Russian bureaucracy to keep the people in ignorance by blackening out from foreign papers such paragraphs as its officials regard as likely to be injurious. But most of us are not aware that a similar system is relentlessly carried on by our own bureaucracy, the only difference being that an issue which offends in a single paragraph or advertisement is returned in toto to the publisher. Of the two methods the Russian is the more intelligent and the less oppressive.

SHANNON M. E. CHURCH

Handsome Edifice to Be Re-opened September 27th With Sermon By Bishop Hendrickson

The congregation of Shannon Methodist Episcopal Church are making great preparations to re-open their handsome building, and the services are expected to be an auspicious event to take place on Sunday, September 27th. Bishop Hendrickson of the West Virginia Conference will preside and he will deliver the principal sermon.

The Shannon Church has been practically converted into a new building at an expense of \$3,100, and as a religious edifice it compares favorably with any Church in the county. The structure has been entirely remodeled and refurnished and a new organ has been added, which, with the new lights and seats, makes it one of the most inviting and complete in the State.

The re-opening is to be made a notable occasion and the remaining debt of about \$1,000 is to be wiped out entirely.

Those interested in the Church are requested and expected to attend and bring well-filled baskets for the entertainment of the multitude.

BETTER THAN A CIRCUS

Meant Business Just the Same and Hubby Takes to Tall Timber to Save His Cuticle

Wife's Unexpected Appearance Causes Consternation

Saturday afternoon a scene occurred in the L. and N. yards in East Third street in which the opening act had every appearance of tragedy. Fortunately it ended in farce comedy.

From the evidence in the case, coining a legal phrase, it seems that a brakeman employed on the road, whose domicile is located in Paris, has been leading a double life; this is, at Paris he was supposed to be a dutiful spouse in whom there was no guile, while at this end of the line he is credited with having been the assiduous lover of a frail and pretty denizen of the under world.

In some manner his better half was informed of his deception, and in order to verify or disprove the ill reports, she came here to investigate, and astounding was the result.

Saturday she landed here unheralded, and accompanied by her sister, she wended her way to the rendezvous, which happened to be the caboose attached to his train, almost ready to start on a Southbound run.

As she approached, her ears caught the sound of mirth and revelry going on within, which so aroused her wifely indignation and enraged her to a pitch that she began spitting fire and saying naughty and direful things. She was carrying a hand satchel, which evidently contained something, and that something was liable to be heard from when in action, judging from her remarks.

The occupants, which consisted of two gilded, giddy ladies and several of the male gender, evidently had warning of a coming storm in consequence of the thunder and lightning taking place on the outside, and having in mind the truism "that discretion is the better part of valor," made a precipitate and inglorious retreat, the husband taking a header out of a door and over a cinder car, and never stopping in his mad flight until he reached Watkins' Cut, where he was later picked up by his outgoing train. The ladies made a leap for life and skidded down a 20-foot embankment and disappeared in the willows abounding in the vicinity.

COMING EVERY DAY....

My heavy purchases of goods for the fall and winter trade. When all in my stock will be complete and of the very best that can be produced.

ALWAYS IN STOCK.

A complete line of Iced Canvass Hams and Breakfast Bacon and finest Leaf Lard, packed specially for my trade from young, healthy hogs. The only house in Maysville that handles these specially made goods.

PERFECTION FLOUR.

Ground from new wheat, is now coming, and as the wheat crop in the section where this famous Flour is made is unusually fine, I have no hesitancy in offering the Flour to my trade as the very best that can be produced. Every barrel guaranteed.

Fine Blended Coffee is one of my hobbies. I buy my Coffee green from one of the largest importers in large quantities, have them roasted as I need them and they are always sold to my trade fresh. I have no competition in these fine goods, either in quality or price.

FINE TEAS

A specialty. For those who use iced teas I recommend "Heno" Tea, a very fine mixed tea sold only in packages.

A big supply of TIN CANS and Mason Fruit Jars at lowest prices. In fact, my stock is always full, complete and up-to-date in every respect. No stale or unwholesome goods ever offered.

Cash paid for Butter, Eggs and such Country Produce as I can handle in my business.

Always a full supply of Fruits and Vegetables.

500 best cure Country Hams wanted.

Your patronage is respectfully solicited.

MINERVA TRAGEDY

Second Killing of Parent Reported --- John Smith, Colored, Shot to Death by Chas. Martin, Step-son

Hardly has the ground settled over the grave of Louis Bruist, who was shot and killed by his son, John, at Minerva two weeks ago, until another patricide in the same village is announced.

This morning at 6 o'clock Charles Martin, aged 19, shot and killed his stepfather, John Smith, aged 53 years, in Minerva, the tragedy growing out of domestic troubles.

Smith, who is a well known colored man, was shot in the bowels and breast three times and died in a few moments.

A few years ago at a dance near Minerva, Smith's first wife was literally cut into ribbons by Mary Mason, another colored woman.

Smith's step-son has skipped out.

HIDDEN DANGERS.

Nature Gives Timely Warnings That No Maysville Citizen Can Afford to Ignore.

DANGER SIGNAL No. 1 comes from the kidney secretions. They will warn you when the kidneys are sick. Well kidneys excrete a clear, amber fluid. Sick kidneys send out a thin, pale and foamy or a thick, red, ill-smelling urine, full of sediment and irregular of passage.

DANGER SIGNAL No. 2 comes from the back. Back pains, dull and heavy or sharp and acute tell you of sick kidneys and warn you of the approach of dropsy, diabetes and Bright's disease. Doan's Kidney Pills cure sick kidneys and cure them permanently.

Here's Maysville proof:

Mrs. Harvey Lyons, living in the Western part of Maysville, Ky., says:

"In my estimation Doan's Kidney Pills are an ideal kidney remedy, and I have no hesitancy in so expressing myself. My husband was bothered a great deal by a severe pain across his back, and although his condition was never so serious that he was obliged to lay off from work, he nevertheless was in misery. An added source of annoyance was the irregular action of the kidney secretions, this symptom denoting that his trouble arose from disordered kidneys. Being advised to try Doan's Kidney Pills, he procured a supply at J. J. Wood & Son's Drugstore, and they acted just as beneficially in his case as in many others which he had read about. A short use entirely cured him, and up to the present time there has been no return of the trouble. Recently I was suddenly afflicted with a similar trouble, but began taking Doan's Kidney Pills, and from the beneficial results already received I look forward to a complete cure."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States.

Remember the name—Doan's—and take no other.

The readers of this paper will be pleased to learn that there is at least one disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for anyone that it fails to cure. Send for list of testimonials.
